

### Paper format

■ Paper size:

	height	width
Minimum	69 mm	80 mm
Maximum	257 mm	182 mm

■ Maximum number of copies: 1 original + 2 copies

### Printout position

### General presentation

The TM 295 printer is a dot matrix printer printing alphanumerical data on weigh tickets and forms. Maximum printing width is 40 characters.

### Field of application

The printer has been designed for use in commercial and industrial environments, especially for those cases where the weighing data are printed out on preprinted forms.

### Connection

- M5, M7.
- T 2500.
- ICT self-service weighing terminal.

### Metrological Approval

- Test certificate issued by a notified body in accordance with the Directive 90/384/EEC relating to non automatic weighing instruments.

### European Conformity

- Modified Directive 89/336/EC (*Electromagnetical Compatibility*)\*.

### Printing characteristics

- Printing speed: 2 lines per second
- Characters size:

	height	width
Simple	2.75 mm	1.25 mm
Double largeur	2.75 mm	2.5 mm

- Character matrix: 7 x 5.

\* Meeting the conditions of this Directive directly depends on a correct installation.

**Physical characteristics**

- Weight ..... appr. 1,7 kg
- Height ..... 100 mm
- Width ..... 180 mm
- Depth ..... 190 mm
- Dimensions power supply adapter ..... 45 x 80 x 160 mm

**Electrical characteristics**

- Power supply ..... 230 V
- Frequency ..... 50 Hz
- Average power consumption ..... 15 VA

**Environmental conditions**

- Temperature range:
  - operation ..... + 5°C / +40°C
  - storage ..... - 10°C / +50°C
- Relative humidity (without condensation) ... 30 to 80%

**Connection**

- Serial, RS 232
- Baudrate: 1200 baud
