

General description

The LQ 350 printer is a 24-dot matrix printer that enables editing up to 10 cpi* 80 columns on:

- ▼ Caroll drive listing paper,
- ▼ tickets,
- ▼ sticking labels.

Field of use

The printer is suitable for high-pace sales and industrial use, that is ideal for counter type applications.

Connection to instruments

- C range
- M range
- Process
- ICT terminal
- I 200, I 300, I 500 ranges
- i20, i35 ranges
- PC

Safety norms

- IEC/EN 60950-1
- AS/N2S CISPR22 Class 4

Electrical certification

- Electromagnetic compatibility compliant with the requirements of the 2004/108/CE directive
- Compliance with the requirements of the 2006/95/CE Low Tension directive

* Characters per inch

Editing data

- ▼ Printing speed for 10 cpi:
 - Draft quality 347 cps**
 - High quality 86 cps
- ▼ Printing definition: 360 x 360 dpi***
- ▼ Size of characters (h x l):
 - Simple: 2.5 mm x 2 mm
 - Double: 2.5 mm x 4 mm

Paper format

- ▼ Belt width: 100 to 257 mm
- ▼ Belt length: 100 to 364 mm
- ▼ Thickness :
 - Simple sheet: 0.065 to 0.14 mm
 - Multi-copy : 0.12 to 0.32 mm
 - Max number of copies: 3 copies

Paper drive

By friction (simple paper) or traction (Caroll paper).

Technical data

Physical features

- ▼ Mass 4.1 kg ≈
- ▼ Height..... 154 mm
- ▼ Width :
 - without drive scroll wheel..... 366 mm
 - with drive scroll wheel 362 mm
- ▼ Depth 275 mm

Electrical features

- ▼ Power tension..... 198-264 V
- ▼ Frequency 50 to 60 Hz
- ▼ Consumption:
 - in operation..... 24 W
 - in saver mode (after 4' 30")..... 13 W

Environmental features

- ▼ Temperature range:
 - operation..... +5°C / +35°C
 - storage..... -30°C / +60°C
- ▼ Relative humidity:
 - operation (*without condensation*)..... 10 to 80%
 - storage..... 0 to 85%

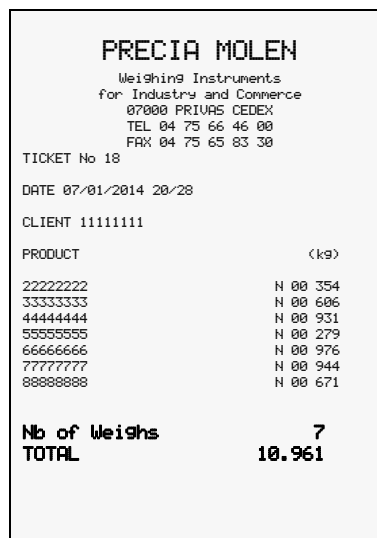

Connection

- ▼ RS 232 serial interface and Centronics parallel interface
- ▼ Transmission speed: 1200 to 19200 bauds

Other features

- ▼ Sound level (printing mode): 53 dB (A)
- ▼ Printing head lifespan: 400 million hits
- ▼ Black ribbon autonomy: 2.5 million characters
- ▼ Replaces the LQ 300+ printer

Printing examples

The printed information and the presentation of the examples below are directly related to the indicator to which the printer is connected.
