### Activity

During the fourth quarter of the year, Precia Molen Group achieved a turnover of € 26.4 million, increasing by 8.1% compared to the same period in 2013. Over the year, the turnover amounts to €95.4 million, increasing by 7.2%. At constant and perimeter exchange rates, the increase is 2.6%; the variance being explained by the integration in the consolidation perimeter of the companies Precia Molen (IRL) Ltd, Antignac SAS and Shering Weighing Ltd.

After the first semester, very positive on both order intake and billing, the decrease in order intake begun in may impacted our internal growth that amounts to 2.6% for the full year compared to 7% as at June 2014.

### Forecasts and outlook

With an organic growth reduced compared to the first part of the year, the company anticipates levels of margin slightly decreasing.

However, the macro-economic context for 2015 combining decrease in the euro level and governmental support plans should allow the company to progress on its domestic and export markets.

In addition, the recent acquisition of Le Barbier is expected to increase the domestic sales.
