### Activity

During the first quarter of 2015, the Precia Molen Group achieved a turnover of € 24.4 million, increasing by 12.9 % compared to the same period in 2014.

At constant perimeter and currencies rates, the increase is 2.9 %. The impact of recent acquisitions (Antignac in July 2014, Shering Weighing in August 2014 and Le Barbier in January 2015) is 8.5% and represents then most of our growth. The currencies changes impact the sales by 1.6%.

This first 2015 quarter, sales are reflecting the level of order intake of last quarter of 2014 quite high and beyond external growth, the increase is noticeable on the French, British and Indian markets. On the other hand, the lack of substantial delivery in Morocco has penalized our performance in this area compared to the first quarter of 2014.

### Forecasts and outlook

In the first part of the year, the Company's order intake followed the same trend as last year fourth quarter; confirming thus, a quite high level capital expenditure of our customers.

In addition, the integration of recent acquisitions brings to the Group Precia Molen an improved growth all throughout the year, although less marked in the second part.
