Activity

During the third quarter of the year, Precia Molen Group achieved a turnover of € 22.9 million, increasing by 2.5% compared to the same period in 2013. Over nine months, the turnover amounts to €69.0 million, an increase of 6.9%. At constant and perimeter exchange rates, the increase is 3.8%; the variance being explained by the integration of the companies Precia Molen (IRL) Ltd, Antignac SAS and Shering Weighing Ltd in the consolidation perimeter.

After two very positive quarters both on order intake and billing, the decrease in order intake since may actually resulted in a slowdown in our growth. The decrease noted is more important in some countries of Northern Europe.

Forecasts and outlook

The Group environment remains unpredictable from one quarter to another and the level of order intake is quite variable. Nevertheless, with a target maintained at € 95 million, the Group expects a growing 2014 year thanks to acquisition and internal growth even with the economic environment deteriorating in this last quarter.
